

change ownership

basic

```
chown <user>:<group> <option> <path>
```

```
chown www-data:wheel -R /var/www/html/project_name
```

-R = recursive

change own from one of the user or group only

```
chown -R --from=root nginx /var/www/html/cms
```

```
chown -R --from=:root :nginx /var/www/html/cms
```
