

Email relay mygovuc

check ip tu ada akses atau tak

```

```
curl https://postmaster.mygovuc.gov.my/cgi-bin/myip
```

```

telnet (windows / linux)

using CMD

```
* ``telnet postmaster.mygovuc.gov.my 25``
* ``EHLO bmt.mampu.gov.my``
* ``MAIL FROM: shaiful@mampu.gov.my``
* ``RCPT TO: mampu2288@gmail.com``
* ``DATA``
* ``From: shaiful@mampu.gov.my``
* ``To: mampu2288@gmail.com``
* ``Subject: this is a test``
* ``this is an rfc compliant email sent using telnet via ip based authentication``
* ``.``
* ``QUIT``
```

swaks (linux)

2. Kaedah alternatif untuk verifikasi SMTP Relay with IP Authentication

```
``swaks --to mampu2288@gmail.com --from shaiful@mampu.gov.my --server
postmaster.mygovuc.gov.my:25 --body "test - `date`" --tls``
```

```
``swaks --from sistemekgbaru@kpkt.gov.my --to tmukmkd@gmail.com --server
postmaster.mygovuc.gov.my:25 --body "test - date " --tls --auth-user '<username>' --auth-
password '<password>'``
```

send-mailmessage (windows)

using powershell

```
``Send-MailMessage -To mampu2288@gmail.com -From shaiful@mampu.gov.my -SmtpServer
postmaster.mygovuc.gov.my -Port 25 -Subject "Test" -Body "test - 25 Jan 2021"``
```

laravel

perlu cipta satu view blade kosong eg. mailtest.blade.php pada `resources/views`

```
``Mail::send('mailtest', [], fn($m) => $m->to('tmukmkd@gmail.com')->subject('Testing mails'));``
```
